All the Other Tools:

[Tombow Sand Eraser](#) This is an essential tool I use for getting graphite marks off my wood.

[Leather Strop](#) for cleaning and polishing wire tip tools

[Aluminum Oxide Polishing Powder for cleaning my wire nibs](#)

[The Customizer engraving pen](#)

The engraving tool I use to create highlights and texture after I burn

Where to get Wood:

My number one resource for wood:

[It's David and Renee](#)

They have beautiful wood, shaped, sanded and ready to burn. And their prices are very reasonable

Tied with Number one is Aspen Rustic Creations.

[Aspen Rustic Creations](#)

This is where I get my high quality ready to burn Aspen slice, one of my favorites to burn on.

I get all my Plywood Cutouts from Woodpecker's Crafts:

For Basswood I go to [Walnut Hollow](#) and [Wilson Evergreens](#)

Check out [this blog post](#) I wrote that gives more detail about the wood I use and where I find it.

For Adding Color:

[Kuretake Watercolor Pans](#): Incredibly vibrant colors at a great price.

[Colored pencils that I use](#): Prismacolor makes a high quality pencil with a soft core so the color goes down easily on the wood.

[The Pigeon Letters Brushes](#) Have really stood up to painting with watercolor on wood.
